

## Upcoming International Infrastructure Opportunities

### China - Alberta Sustainable Building Mission

**September 3<sup>rd</sup> till September 11<sup>th</sup>, 2010**

The Government of Alberta in cooperation with the Alberta China Office and the Canadian Embassy in Beijing has organized a sustainable building mission to **Hangzhou, Qingdao and Beijing**. The mission will focus on energy efficient building systems and sustainable architecture and urban design.

Alberta companies with expertise in the fields of:

- Manufacturing of energy and water conserving building components (walls-SIPs panel systems, roofing and flooring systems, windows, insulation, tank-less water heaters, HVAC systems),
- Architectural and urban design firms proficient in managing sustainable projects,
- Service providers specializing in energy monitoring and intelligent buildings, and
- Business advisory service providers.

[Registration deadline: July 22<sup>nd</sup>, 2010](#)

### India - Engineering multi-national seeking Canadian partner for Infrastructure projects in India

One of the leading Engineering Companies in India engaged in providing turnkey solutions is looking to partner with a Canadian infrastructure/engineering company that has expertise in roads and highways in order to bid for the various upcoming projects in West Bengal and other parts of the country.

As the company has a strong capital base, and most of the current bids require upfront capital, this may be a strong entry point for Canadian companies interested in pursuing the Indian market.

## India – “Surface Transport 2010” Transport Infrastructure Show

**December 21<sup>st</sup> to December 23<sup>rd</sup>, 2010  
Mumbai, India**

This show will cater to opportunities in the surface transportation infrastructure sector in India.

The subsectors, which will be covered in this show are:

- Roads and Highways,
- Rail/Metro,
- Ports,
- Urban Transport, Urban Infrastructure and
- Intelligent Transportation Systems.

Visitors will include senior government officials; transportation, logistics, and infrastructure companies; town and city planning departments; etc.

Exhibitors will include Highway/railway/port developers, construction equipment manufacturers, construction service providers, and tunneling construction technology companies.

Depending upon the interest shown by Canadian companies, the Canadian Embassy will explore the possibility of a joint booth for Canadian companies and organizing networking events.
